Station Madras., *Dated the* 11th February 19 38.

From (Name) T. Austin Esquire, I. C. S.,
(Designation) Registrar of Co-operative Societies.

To The Secretary to the Government of Madras,
Development Department.
Fort St. George, Madras.

Sir,

Ref:- G.O. No. Ms. 195 (Dev.) dated 21-1-38.

In their order quoted above, Government were pleased to sanction the employment of a Junior Inspector in the Puttur "Mahali" Pest Prevention co-operative society for a period of six months from 1st May 1938. The society represents that the Inspector's main work should be collection as the jurisdiction of the society is spread over two taluks and as the society is unable to employ the necessary staff, especially in its infancy. The Deputy Registrar recommends that the Inspector now sanctioned for a period of six months

from 1-5-38 to 31-10-38 may be employed for 3 months from March to May 1938 and for another three months from January to March 1939. No extra cost is involved in thus splitting up the period. I request that Government may be pleased to approve of the above proposal.

I have the honour to be,

S i r,

Your most obedient servant.

For Registrar. 14/2.

C. No. 7774/38 — Co-operative Societies - Establishment - Temporary Junior Inspector - employment in "Nakali" Post Prevention Co-operative Society - South Kanara - Continuance.

To us

- Please see G.O. No. 195 (Fs) Dev. dated 21.1.'38 and the Registrar's letter in the C.F.

2. The inspector employed under the Nakali Post Prevention Co-operative Society in the South Kanara district was originally intended to write the accounts of the society and to attend to collection work and other matters connected with its working. The services of this inspector were utilised for the first three months from the date of his employment for canvassing shares, collection of share capital and obtaining of indents for the supply of chemicals and sprayers and after an interval, for another three months from 1.11.'37 for collection work, as the society had no staff for this work. When recommending the retention of the inspector in December '37 till 31.10.'38 the Registrar reported in Dec. 1937 that apart from the supervision of the society, a Government Inspector was necessary to do propaganda and to see that all the

arecanut growers joined the Society to stamp out the disease effectively. The Government considered that for doing this work, the inspector need be employed only during the spraying season and accordingly sanctioned his retention for a period of six months from 1.5.'38. In this connection, attention is invited to the Secretary's notes at pages 16 & 19 of G.O. No. 195 (Ms) Dev. D. 21.1.'38 (S)

cf on p 23 of (S)

p 23 of G.O. 195 Dev (S) 21.1.38

3 It is now represented that the society requires the inspector mainly for collection work as its jurisdiction is spread over this taluks and as it is unable to employ the necessary staff especially in its infancy. It will be seen from para 2 above that the grounds for which the inspector was stated to be required have been shifted from time to time. Even at the outset the Government made it clear that after the period of six months for which the inspector was first sanctioned, the society should make its own arrangements for attending to collection work etc. In view, however, of the Registrar's report that apart from the supervision of this society, the inspector was required for propaganda purposes and to enlist members to the society, the Government retained the post for another six months. If the inspector is required mainly for collection work as now stated,

the Society ought itself to arrange for it. The question of the infancy of the institution does not seem to arise as the whole life is expected to be only 3 years and the Society itself has admitted that it will work with decreasing profits. It is therefore for consideration whether the inspector will be withdrawn or the Registrar's proposal accepted.
